DESCRIPTOR

INT-CL (IPC): A61F 2/06

ABSTRACTED-PUB-NO: SU 1457921A

BASIC-ABSTRACT:

The self-fixing blood vessel prosthesis has an additional fastening element (4) of similar form to basic element (3) positioned outside the casing (1) and joined to basic element (3) by resilient rods (5). The total height of fastening elements (3,4) with resilient rods (5) along the axis of the prosthesis is at least two times the inner diameter of casing (1).

ADVANTAGE - This construction of the self-fixing blood vessel prosthesis prevents its migration. Bul.6/15.2.89
